- d) Will not use our Services if you are a resident or become a resident in any region where transactions of encrypted assets are prohibited.

1.2 As a user, by accepting these terms, you also declare, agree, and assure that you will not violate any law, contract, third-party right, or commit an illegal act, as you are solely responsible for your actions and/or omissions when using our Virtual Wallet. Without prejudice to the above, you declare that you will:

1.3 It is your responsibility to keep your registered email address with EtherPay Wallet updated so that we can communicate with you. You also understand and agree that you lose the right to claim ignorance if you do not receive an electronic communication sent to you by EtherPay Wallet as a result of incorrect registration of your email address, as well as if it is out of date, blocked by your service provider, or even personal incapacity to receive electronic communications.

## 2. ETHERPAY WALLET FEES

2.1 You agree to pay the fees for Exchanges and Withdrawals completed via Wallet (“Fees”) as defined by us, which we may change from time to time. Changes in Fees are in force as of the effective date and will apply prospectively to any Exchanges and Withdrawals that occur after the effective date of such revised Fees.

2.2 We reserve the right to provide different types of rewards to users, either in the form of discounts for our services or otherwise at our discretion and without notice.

## 3. USER CONDITIONS

3.1 To use our Services, the User is required to create an account on the EtherPay Wallet platform, aiming at the full and functional use of this digital wallet. The process of creating the EtherPay Wallet account requires a valid email.

3.2 The User is responsible for creating a strong password, which is not used by other sites, online or offline services, as well as maintaining the security of his/her EtherPay Wallet account, protecting the password, and restricting access to the account.

3.3 The User is required to provide such information and credentials as may be requested by EtherPay Wallet from time to time in order to verify ownership and/or source of funds of the service crypto-assets of third parties that are forwarded to the User’s account.

3.4 We reserve the right to limit the scope of our Services to Users, who:  
  
have not verified their identity and/or configured a necessary level of account security. The limitation of our Services may depend on the established security level of the account, for example, and the following criteria may be considered: email verification, etc.

3.5 In case of violation of the Terms, or any other event that we may consider necessary, as:

Maintenance service; the inability of the third-party service provider to provide services to you; your request for account cancellation; market disruption; inability to comply with our requirements; government investigation, or process related to you or your EtherPay Wallet account; and/or in the event that we perceive an increased risk of legal or regulatory non-compliance associated with your account activity. We may, at our sole discretion and without liability to you, with or without notice:

- a) suspend your full or partial access to our Services; or
- b) prevent you from completing any actions through the Wallet, including closing any open Transaction request. Should the Transaction come back, you acknowledge and agree that the prevailing market rates may differ significantly from the rates available prior to such event; or
- c) terminate your access to the Services, delete or deactivate your EtherPay Wallet account and all related information and files in this account.
